

MOHAB

Responsibility Acknowledgement

A scout is trustworthy. You must trust your crew, and your crew must be able to trust you. Review this information below to ensure you understand the crucial details for your MOHAB expedition. Every participant must *Be Prepared* for the physical demands and preparation for their Montana Outdoor High Adventure Base expedition.

Every participant must review this form before their trek.

- I understand the physical demands for backpacking 5 days with a ~40lb pack.
*Each trek is designed by the Troop; therefore, day mileage varies per what the troop designs.
- I understand that I will be paddling a packraft solely by myself. I understand the requirements needed to control my own boat with a double-bladed paddle on a moving class 2 river.
- I have sufficient ability to swim in moving water and have/will pass the BSA Swimmer test.
- I have prepared my personal gear by reviewing the MOHAB Individual Gear Checklist from the Leader's Guide.
