

100 Degree of Frost Information

1. Any Scout and/or Adult Scouter may qualify for this Award.
2. One hundred degrees of frost are required to earn this award in each qualifying period. For example, one night of camping, with a low temperature of 10° Fahrenheit, will net each camper with 22 degrees of frost. (32 degrees minus 10 degrees equals 22 degrees of frost points.) This will apply to only the youth and adults camping, not the troop or patrol as a whole.
3. The official weather bureau station nearest the campsite will determine the degree of temperature. The leader's thermometer reading will be accepted, but the temperature estimates should be checked with the weather bureau or published temperature readings in the newspaper.
4. A Scout cannot carry degrees over to another season.
5. A Scout must spend eight continuous hours in the qualifying period between sunset and sunrise in a lean-to, snow shelter, tent, or in the open.
6. No stoves or heaters are permitted in the tents or shelters. Scouting America does not permit open flame heat sources in tents.
7. Open fires are permitted as long as they do not constitute a hazard to the shelter or surrounding area. Refer to the Guide to Safe Scouting for more information.
8. Scouts must always be accompanied by registered adult leadership approved by the Unit Committee and must adhere to the principles of two-deep leadership and the Guide to Safe Scouting.
9. Any organized council or district campout, such as Klondike Derby or other winter camp, may be used as long as all of the rules are followed.
10. The qualifying period for the 100° of Frost Award Emblem is **September 1 through May 31st**.

A special 100 Degree Frost Award patch is available from Council Scout Stores. Unit leaders certify campers who have met the requirements by completing the application attached to these requirements.
